

Gary Brannon is a middle school teacher in the Mountain Empire Unified School District. He currently teaches Earth, Life, and Physical science and ties it into 6th Grade math, Pre-Algebra and Algebra. Gary's goal is to provide a connection between what young scholars learn in school and how this will be useful in adult life.

Gary holds a BS in Business Administration and a MA in Education and is currently working to complete his Administration credentialing. In his free time Gary enjoys outdoor activities including hiking, surfing, soccer, and spending time with his family.
